

EARPLUGS

Quiet®

Easy handling, better fit. NRR 26

Overview

Feedback

Honeywell Quiet®

earplugs are ideal for environments where employees can retain and store earplugs for reuse over time, reducing waste and saving money.

- Patented no-roll design is easy to handle and fit.
- Contoured shape provides a close fit in the ear canal.
- Integrated stem makes insertion quick and easy.
- Supplied in pairs in a practical plastic storage case.

Inspect:

Before fitting, examine your earplugs for dirt, damage, deformation, or extreme hardness.

Discard:

Discard immediately if earplugs are compromised.

Hygiene:

Wash reusable earplugs with mild soap and warm water only. Pat dry with a towel and store when not in use. Do not treat with any other substances, as the earplugs may degrade and compromise effectiveness. With proper maintenance, reusable earplugs can be used daily for 2-4 weeks.

Fitting a reusable earplug:

1. While holding the stem, reach a hand over your head and gently pull the top of your ear up and back.
2. Insert the earplug so all flanges are well inside your ear canal.
3. If properly fitted, the tip of the earplug stem may be visible to someone looking at you from the front.

Improper fit of this device will reduce its effectiveness in attenuating noise. Refer to the instructions on the package for proper fit.

Recommended industries/use:

- Agriculture
- Construction
- Fire/Forestry
- Government

- Law Enforcement
- Light Manufacturing
- Transportation
- Utilities
- Welding
